*27* MAY 1976

SUBJECT : World Atlas

1. Attached is Volume 1 of the World Atlas. I think 7,000 copies are planned.

2. 4,000 copies are being made for Agency and Intelligence Community use. 7,000 copies are being run for the Superintendent of Documents/Government Printing Office to be sold at \$2.00 each.

3. I gather this is the first time printing to this extent has been done for the Superintendent of Documents. In the past, we would make available to GPO reproducible copies and they would go out on contract to have copies made. At the request of the Superintendent of Documents (since we have the plates), we were asked to print for them. A thorough check was made through OGC and the Joint Committee on Printing as to whether this could be done, and approval was given.

4. The Atlas is bound in such a way that when all 6 or 7 volumes are completed, they can be put together as one volume.
